designer faucet range
stylish and functional

D Series - MODE

D Series - ULTRA

D Series - DELTA

D Series - DÉCOR

D Series - LEDA

S Series - SLIMLINE

S Series - STANDARD

The faucet... the part of your under-sink water filtration unit on permanent show.

We are pleased to offer a contemporary range of designer faucets for under-sink filtration systems that are both easy on the eye and a joy to use thanks to the skill of talented craftsmen.

All faucets in our D Series range are polished chrome plated and feature ceramic valve seats for a long and useful life. These units also have variable flow with quarter-turn mechanism control. The S Series models have conventional lever control.

For more information contact Aquafresh Water Purifying Systems or your Aquafresh authorised representative.
