

# Water Filters - Water Purifiers & Shower Filters

# WATER FILTERS TO SUIT TODAY'S KITCHENS

An Alpine under sink water purifier is a convenient means of providing clean, fresh tasting water free of contaminants at a fraction of the cost of bottled water.

Hidden away plumbed conveniently under the sink, the range of Alpine water filters is ideal for home and/or office situations.

All systems are supplied with installation kits which include connections to your under sink pipework, pressure limiting anti-hammer back flow prevention valving, shut off valve, high pressure food grade tubing and a stylish chrome faucet.

## The benefits of underbench purifiers

It reduces:

Sediment, dirt, rust and silt to improve water clarity

Offensive odours from built up organic matter in water pipes. Offensive tastes from bacteria killing chlorine

VOC - Volatile Organic Compounds

Prevents against:

Cryptosporidium, Giardia Cyst and selected volatile organic compound down to 0.5 micron (nominal)

Bacteria

All under sink systems  
include a chrome  
ceramic seat quarter  
turn designer faucet

### Alpine TJ Series Single Underbench Purifier

<b>Type</b>	Single Underbench
<b>Model</b>	Alpine SUTJ Series
<b>Part Number</b>	SUTJ3-K2-DFM
<b>Micron Rating</b>	0.5 micron (nominal)
<b>Flow Rate</b>	4 litres/minute (optimal)
<b>Temperature</b>	Max. 38 degrees C
<b>Pressure</b>	862 kPa (125 psi)
<b>Dimensions</b>	275 mm high x 95 mm wide x 93 mm deep

**\$290** INCL. GST

### Alpine TJ Series Twin Underbench Purifier

<b>Type</b>	Twin Undersink
<b>Model</b>	Alpine TJ Series
<b>Part Number</b>	DUTJ43-K2-DFM
<b>Micron Rating</b>	0.5 micron (nominal)
<b>Flow Rate</b>	4 litres / minute (optimal)
<b>Temperature</b>	Maximum 38 deg C
<b>Pressure</b>	862 kPa (125 psi)
<b>Dimensions</b>	275mm high x 190mm wide x 93mm deep

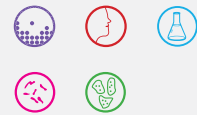

**\$396** INCL. GST

### Alpine 3 Stage Undersink Water Purifier

<b>Type</b>	3 Stage Undersink
<b>Model</b>	Alpine TJ Series
<b>Part Number</b>	TUTL43NF-K6-DFM
<b>Micron Rating</b>	0.2 micron
<b>Flow Rate</b>	4 litres per minute (optimal)
<b>Temperature</b>	38 degrees C max.
<b>Pressure</b>	862 kPa (125 psi)
<b>Dimensions</b>	275 mm high x 290 mm wide x 93 mm deep

**\$580** INCL. GST

### Alpine Reverse Osmosis Undersink Water Purifier

<b>Type</b>	Reverse Osmosis Undersink
<b>Model</b>	Alpine TJ Series
<b>Part Number</b>	TJR013T12-K3-DFM
<b>Micron Rating</b>	5 angstrom
<b>Flow Rate</b>	1.5 litres per minute (optimal) from accumulator tank
<b>Temperature</b>	38 degrees C max.
<b>Pressure</b>	862 kPa (125 psi)
<b>Dimensions</b>	290 mm high x 390 mm wide x 93 mm deep

**\$920** INCL. GST

# HIGH FLOWING FILTERED WATER FOR YOUR KITCHEN MIXER TAP

**\$295** INCL. GST

## Introducing the Alpine AQ905 Full Flow System

A high performance, high flowing filtered water for your kitchen mixer tap. Fits in line with your cold water mains supply to your kitchen mixer faucet. Filtered water cartridge Watermarked certified to reduce chlorine, bad tastes and odours, sediment and other chemicals.

### What's in the kit

Bracketed filter head – ½" BSP male inlet and outlet

High Flow Filter Cartridge Watermark Certified AS3497 Lic. 23066

Two 450mm x ½" BSP braided hoses – 15 year warranty – Watermark certified WMKA21431

Ceramic disc chrome stop valve with swivel nut – Watermark certified

Chrome brass pressure limiting anti hammer back flow prevention valve – Watermark certified to AS1357.2, AS2845.1, Lic 23059

### Features

Quick and easy installation – fits in line with existing braided hoses

Ideal for stone benchtops or where a separate dedicated faucet is not ideal

System hidden away under the kitchen bench

Quick and easy cartridge replacement with up to 12 months usage

### Specifications

<b>Flow rate:</b>	8 litres per minute
<b>Max water temperature:</b>	38 deg C
<b>Filtration Grade:</b>	Fine
<b>Micron Rating:</b>	5
<b>Minimum Pressure:</b>	172 kPa (25psi)
<b>Maximum Pressure:</b>	860 kPa (125 psi)
<b>Warranty (excl cartridge):</b>	3 years
<b>Dimensions:</b>	450mm (L) x 110mm (W)

### The Alpine "Grande" Tri Flow Polished Chrome Designer Mixer Faucet

A chrome plated finish brass this mixer tap/faucet and has an ultra modern look in any kitchen.

The Alpine "Grande" faucet features a pin levered Hot and Cold mixer operation on the top with an easy to use pin lever control under the spout for pure water flow. This faucet eliminates the need for separate filtered water faucet.

It is the perfect faucet for **reverse osmosis, single, twin or triple undersink water filtration systems**. The Alpine "Grande" faucet can easily replace an existing mixer faucet to reduce the clutter on your kitchen bench.

This product is Watermark Certified to AS/NZS 3718 Cert. 23033

# SIT BACK AND BREATHE EASY

With Blueair air purifier systems, you can surround yourself with air that is virtually free from impurities – wherever you are. Unlike most other hepa air cleaners, Blueair's HEPASilent filter technology removes 99.97% of airborne particles as small as 0.1 micron – that's 3 times better than a standard (0.3 micron) Hepafilter. And with zero ozone emission.

Our range of world-class room air purifiers meet virtually every requirement for Australians living and working with asthma, allergies, hayfever, pets, road fumes, chemical residues and other forms of airborne pollution.

## Features

**Particle Filter** removes 99.97% of airborne particles such as pollen, dust, and pet dander. A combination of both electrostatic and mechanical filtration means a less dense filter media, and whisper-silent delivery of clean air.

**SmokeStop Filter** for removal of gaseous pollutants, such as tobacco smoke or volatile organic compounds. The same SmokeStop uses the same HEPASilent technology as our particle filters to remove 99.97% of harmful particles such as pollen and dust from the air.

**HEPASilent technology** unites the best in electrostatic and mechanical filtration. Its revolutionary combination of advanced filter media and an encapsulated ion particle charging chamber ensured that your Blueair purifier delivers results far superior than either mechanical or electrostatic technology alone.

**Wi-Fi** use the Blueair Friend app to control functions such as the fan speed, LED light, child lock and night mode on your connected air purifier. You can turn it on and off remotely with the Blueair Friend app, to make sure you always breathe clean indoor air when you arrive at home or at work.

**Smartphone Control** your Wi-Fi connected unit from your smartphone with the Blueair Friend app. Change functions such as fan speed, child lock etc remotely, to make sure you always have access to clean air. The Blueair Friend app will also help you monitor indoor and outdoor air quality and recommend measures to stay healthy.

**The Integrated Air Monitor** checks particle and gas levels in the air and adjusts the fan speed automatically, to maintain the cleanest possible indoor air.

**Castors** Forget dragging or lifting your air purifier. Save your back with these casters, that allows you to roll your air purifier to wherever you want it.

### Blueair Joy S

Recommended room size  
17m<sup>2</sup>

Size (H x W x D)  
424 x 203 x 203 mm

**QUALITY SHOWER FILTERS  
FOR CHLORINE REDUCED,  
REFRESHING SHOWERS**

Chlorine is universally used to disinfect water but it is generally regarded as not safe for drinking, showering or bathing. Today, millions of people worldwide filter their drinking water but comparatively few filter their shower water even though research studies have reported and warned of the potential damaging effects of exposure to chlorine evaporated out of shower water.

Public concern is growing and one day something will be done but in the short term, the simple, economical answer is to install a shower filter that will reduce or remove the harmful chlorine as well as dirt, rust, sediment and other water borne contaminants.

**\$80** INCL. GST

### Universal shower hose filter

(hose and showerhead not included)

The shower hose filter connects between the water inlet and the shower hose and has a unique ball swivel connection.

The filter provides a service life of about 6 months and uses the special high performance KDF and Chlorgon™ filtration media.

The replaceable cartridge can be easily reversed to provide balanced filtration and back flushing for excellent long life.

The unit is available in Chrome finish only.

Size: 40mm diameter x 200mm length

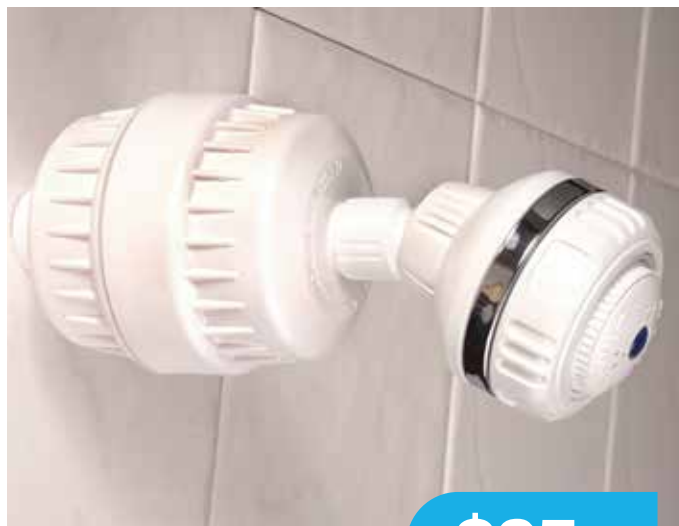

#### System Benefits:

Reduces chlorine, dirt and odours from your shower water.

Reduces problems such as dry skin and hair, eye and skin irritations, scum on shower screens caused by chlorine in your shower water.

This high performance shower filter provides a clean and healthy shower for the entire family.

Cartridge life approximately 4 to 6 months.

**\$95** INCL. GST

### Shower Filter SFHOWH

(shower rose not included)

The high output replaceable cartridge is easily reversed to provide balanced filtration and back flushing and gives an excellent service life of about 12 months. Features special high performance KDF and Chlorgon™ filtration media.

The shower filter unit is available in White, Chrome and Gold finish as options to suit almost every bathroom décor. Available with or without massaging action shower rose.

Size: 89mm diameter x 108mm length

#### System Benefits:

Reduces chlorine, dirt and odours from your shower water.

Reduces problems such as dry skin and hair, eye and skin irritations, scum on shower screens caused by chlorine in your shower water.

This high performance shower filter provides a clean and healthy shower for the entire family.

Cartridge life approximately 12 months.
